

## Transcribe the following passage

### Mornings

Every weekday morning her alarm clock rings at 7 o'clock and every weekday morning she tries to ignore it. She doesn't like mornings! She hides her head under the covers and she pretends that it isn't really morning. She groans. She complains. She says nasty things about mornings. Some mornings She falls back to sleep for a few minutes! After a short time she realizes that she has to get up. She sighs. She struggles out of bed and starts her day.
