

## Final Libre Unificado

### Fonética y Fonología Inglesas 1

Answer the following questions.

Complete this document. You have 1:30 (one and a half) hour to complete this part of the test.

Upload and send it with your answers.

1. a. What do you understand by 'processes in connected speech'?  
Provide a definition.
- b. Focus on devoicing: Are all consonants devoiced in the same contexts? Expand.
- c. Explain and exemplify one process in connected speech where the 1st stage of a plosive is affected and one in which the 3<sup>rd</sup> one is altered in any way. What happens articulatory speaking in each of the cases you mention?
2. Explain phonemic and allophonic assimilation of voice. Give examples.
3. Define what degree of stricture means and provide examples of sounds with different degrees of constriction.
4. Similarities and differences between nasals and plosives.
