

Written Test

Cursada 2020/21

FLD

Read the text to find examples of the processes listed below. **YOU DON'T NEED TO TRANSCRIBE THE WHOLE TEXT.**

'I can't believe I met you. I've never felt like this about anyone before.'

'This does feel amazing,' Kate said. And then a quiet worry that she had been ignoring became too loud to ignore.

'You don't think ...?'

'What?'

'What if it's the Limeren making us feel like this? What was it he said about heightened emotions?'

'There's only one way to find out!' Michael said. 'If you don't want to be my girlfriend any more after a few days, we'll know it was just the Limeren.'

She felt herself melt at the word 'girlfriend'. 'Maybe your side effects will wear off first!'

Write the examples in phonetic script with the corresponding diacritic on a separate paper.

- | | |
|---|--------------------------------|
| 1. Coalescent assimilation | 10. Nasalization |
| 2. Phonemic progressive assimilation of voice | 11. Elision |
| 3. Velarization | 12. Devoicing |
| 4. Aspiration | 13. Linking (example 1) |
| 5. Omission of the onset | 14. Linking (example 2) |
| 6. Geminataion | 15. Neutralization (example 1) |
| 7. Release masking | 16. Neutralization (example 2) |
| 8. Lateral release | 17. Dentalization |
| 9. Pre fortis clipping | 18. Non audible release |
| | 19. Similitude |
| | 20. Labialization |

Take down the dictation in phonetic script on a separate sheet of paper.
